Sir,

In confirming my Telegram of this date regarding the fixing of price for horse gram, I have the honor to state that it is one of the grains brought under control by Government Order No. 7870/P.P. 109-18-6 dated 30th October 1918, and its export to places outside the State is regulated by Government Order No. 7885/P.P. 109-18-7 of the same date, that during the beginning of the present harvest which was estimated to yield a good out-turn, large quantities were brought to Santes and sold at 16 to 18 seers per rupee, and that considering the condition of crop, it was expected that it could be sold cheaper or the same rate could be kept up, but suddenly the supply to markets has fallen short and the price risen so much so that it is now sold at 11 or 12 seers per rupee, when its harvest is in full swing. It would appear that a few greedy merchants with a view to profiteering and to make good capital out of the transaction have been storing large quantities by advancing money to growers and have thus inflated its price though the conditions do not warrant it. There is not the least doubt that there is a large quantity with the ryots but they are with-

From

K. MATTHAN Esq.,
Food Controller in Mysore,

To

C. S. Balasundaram Iyer, Esq., B.A.,
Chief Secretary to the Govt. of Mysore,
Bangalore.

Sir,

With reference to your memo No. G.15527-9/P.P. 109-18-16 dated 25th January 1919, forwarding for my opinion a copy of a telegram from the Deputy Commissioner of Hassan regarding the fixing of prices for the sale of horsegram, I have the honour to state that as we have agreed to export 1,400 tons of gram and pulses per month to the Madras Presidency, it is inevitable that the price of this commodity should go up. I also learn that a pretty large quantity of horsegram has gone towards the Bombay Presidency without priority certificates owing to stations on the Mysore-Arsikere Railway not having received orders about prohibition of export of horsegram outside the State. This has also resulted in prices being forced up.

I have no information readily to hand about the probable yield of horsegram in the new harvest, but from what I have been able to gather during my tours, the horsegram crop has been good and there are large quantities available for export. As horsegram is not generally required as an article of human food and as our arrangement is to

to allow the export of horsegram only as against the import of equal quantities of rice from Madras or wheat from Bombay, I do not think that it is necessary at present to fix any wholesale or retail prices for the sale of horsegram.

I have the honour to be,

Sir,

Your most obedient servant,

Kumaran
